Company Data:

Ice Productions, LLC was officially launched in 1985 on the campus of Tuskegee University (formally Tuskegee Institute) in Tuskegee, AL. Its student founders realized the need and opportunity to provide members of the Greek letter organizations (sororities and fraternities) on campus with Greek paraphernalia, which was very limited at the time. With the vision of expanding, new business relationships and fresh talent in the areas of sales, print, and screen art were sought after. In 1986, the Ice Productions team organized a promotional event to showcase their new tee-shirt designs, which proved to be a major success. As a result, Ice Productions set out on a nationwide city tour, focusing on college towns. As business continued to grow, orders from local companies, religious groups, and organizations were in demand. After 30 years of professionalism and loyalty to its customers, Ice Productions is currently a government-approved vendor, and continues its commitment of creating quality products while maintaining competitive pricing, and utilizing state-of-the-art servicing.
